A GARDEN OF HOLIDAY GIFTS

Do you have any hard-to-buy-for recipients on your list this year? Fret not; we knew you would, so we found a large selection of unusual, beautiful, and useful gifts from which to choose. At the Holiday Market we also found a great many festive items to help you decorate your home or to give as gifts. Shopping here is easy! So many ideas, so little space; here are some of our favorites.

We have the highly prized large spicy apple beeswax blend candles in two sizes, and the oval bay leaf and clove candles, both with fragrances reminiscent of holidays when someone else was doing the cooking. We selected candle rings to encircle their bases; one with a beautiful combination rose, fir, ivy, and winterberry mix, and one in ultra sparkly green leaves and berries.

Beautiful wreaths are often difficult to find; we have a number available, from the traditional abundant greens, berry mixtures, to the shimmering Biloba leaves in pale Verdi green and gold accent patterns.

We have garlands in berries or greenery to add richness to mantles, or to drape atop pictures and mirrors.

Statuesque 27.5" heralding angels make a dramatic statement on a mantle or buffet. The three piece dark brown buffed metal figures are easily assembled and disassembled for storage.

Simple rustic white 27.75" doves of peace can soar singly or as an opposing pair in a window, on a mantle, table, or sideboard. Also constructed as three piece figures in lightly distressed white metal, they are easily stored.

For bird lovers there is a Hummingbird Nectar Set that includes a box of nectar mix and a glass carafe for the refrigerator, all in a handy gift caddy.

Reminiscent of old fashioned hard candy, the colorful glass "lollipop" hummingbird feeders are like jewelry to the gardeners' eyes and a delicious feast in waiting in the hummingbirds' eyes. Just insert in the ground and fill with nectar.

Based on the designs of antique hurricane lanterns, the three port feeder allows multiple hummingbirds to feed at once. Laboratory quality rubber stopper removes for easy cleaning.

A beautiful container for birdseed, an emerald green glass "trumpet" with antique brass base would look well hanging in your favorite bird lover's tree.

Give a bird lover an ornament or decorate a package with one of our glitzy, beaded or feathered bird clip on ornaments. There are bird table centerpieces, bird plates, bird statuettes, bird baths in all sizes and styles, and even a fountain with its own birds attached.

All birds love to bathe, and need water to drink even in cold weather. A bird bath such as this one with a beautiful meadow grass pattern in a champagne finish will please any bird and those who love them. Stepping stones are also available in the same pattern and finish.

This year is all about shimmer. All that glitters is not necessarily gold, but copper. Copper rain chains and rain cups are a new garden accessory. They work in place of a gutter spout, allowing the water to dance beautifully down them to the ground. Copper tippy toadstools add movement and shine to a pot or garden focal point.

An especially nice gift for a man or a couple, copper torches are delightful to own, adding a soft ambiance to the garden and patio. Fill the bowl with any good lamp oil. The fiberglass wick lights easily and never burns away; a snuffer is attached with a chain.

Classic solid brass and copper weather instruments and timepieces also make good gifts for a man or a couple. The new Jeffersonian Rain Gauge is both attractive and unique. Some new selections include the 36" Estate Thermometer with easy to read numerals and the Vermont large 8.5" dial thermometer with an easy to read format and a solid copper casing that will never peel. We carry the industry's leading brand of table top or wall mounted thermometers, rain gauges, and outdoor clocks available, all with lifetime guarantees!

Other gifts that gardeners tell us that they do love or would love to own include Joyce Chen Garden Scissors with long narrow blades that are forever sharp and reach into tight spaces for deadheading or light pruning.

The hand rake is ideal for cleaning between plants when a full sized rake is too large. It is always good to be equipped with the right tool for the right job, and customers return to tell us how much they love this tool and they buy them for their friends.

A pair of Felco pruners is a must; once anyone uses a pair of Felcos, they will never go back to cheap bypass pruners. Felco is the leading brand of garden pruners.

It is a precision Swiss made instrument that will last for the life of the gardener. Felcos have strong, sharp blades that make clean cuts for a healthier garden.

Every gardener needs gloves, the more comfortable the better. Our Weeder Gloves are a national favorite. With great dexterity and sensitivity, they are ideal for potting new plants. Porous so that hands don't get hot, they can be worn comfortably all year. They are available in lavender, pink, and green.

Tool Grips are another favorite. The combination of an elasticized cotton liner and textured latex palm/finger coating creates a breathable, sure grip glove. They are available in pink or green.

Cute, fat little Mousie is, 3.5" tall. A darling stocking stuffer, Mousie is a nice addition to a potted plant, bookshelf, or cheese plate; he is the only mouse you will want to have in your house. Get a pair or even more!

Colorful glazed terracotta spheres are available in Riviera blue and apple green, in 10" and 16" sizes. They add needed shine, color, and shape to the garden. They require no maintenance or water; this is a great gift for any gardener.

For people who have pools or water gardens, we have a variety of water related statuary and planters.

The 12" swimming fish accent piece is made of cast stone with a bronze patina.

Planted with Sedums or filled with sand and smaller seashells, this large

cast stone South Seas shell planter will be a focal point or conversation piece.

This glacier blue glazed terra cotta sea shell makes a beautiful addition to a garden or by a pool. Some

customers have also used them as an accent in the bath.
