GREAT GIFTS FOR GARDEN AND HOME

Outdoor pillows make a colorful gift that can be enjoyed the entire season, year after year. The all poly pillows withstand the elements; their covers can be zipped off to launder. A coordinated pair wrapped like a gift makes a nice presentation; give some to yourself for your own garden. Screen prints coordinate with year round stripes and plaids.

An adorable pair of baby bunnies makes a dear stocking stuffer for a special person. Use them in a pot among flowers, or even indoors.

The garden takes on a new dimension when a fountain is added. The sight and sound of moving water truly provide a relaxing effect. A fountain is a garden feature that will be enjoyed and appreciated for years.

Inspired by nature, this dramatic special limited edition oval double wick botanical candle will add an elegant touch and delicious aroma to your home. Burn time is 300 hours. The popular spicy apple beeswax botanical candles are available in several generous 200 hour sizes, a smaller size in a glass tumbler, potpourri, and refresher oil.

A real gardener's treat! The tub trug is one of the most useful tools in the garden, with handles rated to 150 lbs. It can be used for carrying clippings or fall leaves, and potting soil. Waterproof, it is handy for working with water gardens and ponds. We have filled ours with some of our favorite must have garden tools: Joyce Chen garden scissors, Weeder gloves, and an ample soil scoop. Choose from either lime green or bright red.

Our French milled soaps make luxurious gifts for friends, club gifts, and stocking stuffers. These soaps are enriched with Shea butter, making them naturally moisturizing. These little soaps can gently fill a powder room with

their delightful scents.

The cardinal wrapped, scented soap in a resin nest, a coordinated Santa, or amaryllis soap and towel set make delightful winter gifts. Also available are gift sets of twin amaryllis tea towels and holiday tea time gift buckets.

Wind chimes are a splendid gift, adding a natural music to the garden. Our wind chimes are available in a variety of sizes and tones from the smaller light Bach to the heavier, soothing Arias. As they are played by the wind, a set of quality wind chimes sound like wonderful church bells pealing in the distance. Wind chimes are enjoyed rain or shine!

Among our customers' favorite small garden accents, metal toadstools add shimmer and movement to the garden. Made for outdoor use, they look very nice in a group of three in a flower bed or singly in a container of plants.

Rain chains make unique gifts. Used in place of regular gutter downspouts, the rain follows the chain to the ground. Made of solid copper with brass fittings, in polished or in a verdigris patina, they are beautiful even when it is not raining. They make wonderful gifts for couples or that person who has everything. They are available in a variety of styles from large double link chains to stylized flower cups, to this six foot copper watering can with flower chain. Each rain chain comes with its own brass gutter clip and brass hooks for simple and quick installation. Any home would benefit from a gift of a rain chain!

Ideal for use in the Oklahoma winds, these substantial terrazzo oil lamps won't blow away easily. Use on tables, retaining walls, on steps, or in the garden to give a romantic glow to patio and garden. Start with one or a pair and light up your life!

Tweet, Tweet, Time to Eat! Keep your birds happy and your bird seed in great style with this most adorable white enameled metal seed keeper, with handy scoop included! The bucket is equipped with a snug fitting lid.

Use the bird seed in the bucket to fill this unique recycled blown glass pineapple replica with antique brass tray. Like garden jewelry, the glass sparkles in the sun light, attracting your favorite songbirds. Also available are beautiful cobalt blue bamboo style, and a sky blue pillar feeder. Each feeder comes with a sturdy 7" hook for easy hanging.

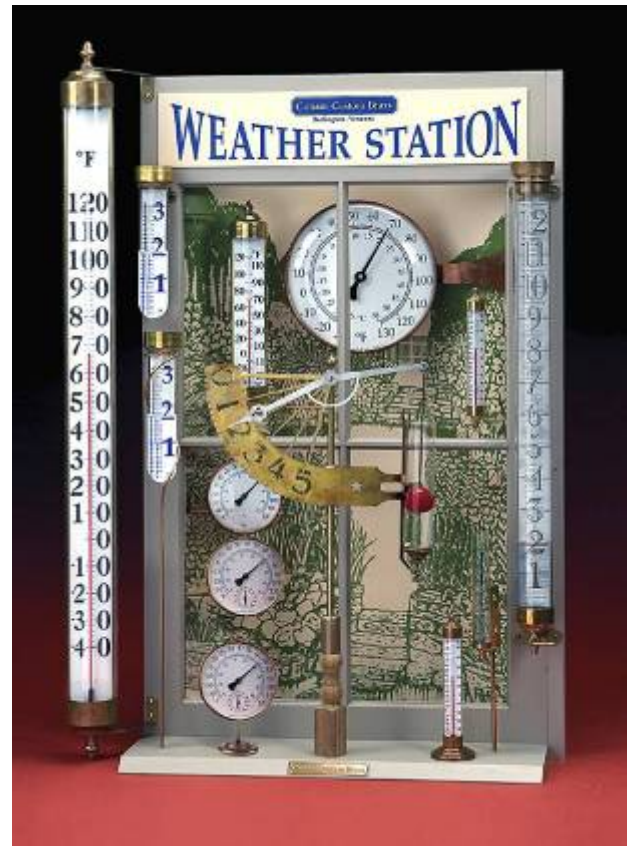

Keep your birder busy with hummingbird feeders and accessories. The queen mother of all hum-

mingbird feeders, our grand chandelier holds six mini blossom feeders and features the ruby red drops to attract throngs of hummingbirds, it includes patented feeding tubes in red recycled glass.

Art calendars are useful gifts that are beautiful as well, a gift that many look forward to receiving. It is fun to change to a new piece of art each month; hang them in one of the wall frames or display them on a desk top in a small easel frame. Available are Susan Wallace Barnes, Linnea, Hannah, and Four Seasons. The Four Seasons desk top calendar pages are also postcards.

Weather instruments are popular gifts to give and to receive. From table top, ground, or wall mounted, we have a full line of rain gauges and thermometers in a variety of shapes and sizes. They are the perfect gift for hobby meteorologists, for gardeners to measure their microclimates, for the person who has everything, and for couples' gifts. Happy Holidays!
